

'F' CHANNEL REVEAL

PRODUCT ID: FPM

Compare to: FDM, FP, FD

DESCRIPTION: The 'F' Reveal creates a reveal where plaster terminates against dissimilar material or sills, jambs and ceilings. The 'F' Reveal can be vented for use in a soffit for air circulation and can be curved for radius applications.

MATERIAL: Aluminum Alloy 6063 T5 **THICKNESS:** Nominal .050 **ASTM:** B 221

LENGTH: Standard: 10 ft.

FINISH: Standard - Clear anodized; Architectural (200R1 Med. Etch AAM32C10A21)
Also available: Alodine® or Chem-Film – a.k.a. 'chemical conversion', custom anodized finishes & Kynar® fluoro-polymer extrusion coating

OPTIONS: **Venting** - All F-Molds from 1/2" width to 4" are available with venting
Radius – F-Mold can be curved to meet your required specifications. Radius order forms are available on our website.
