

'T' MOLDING

PRODUCT ID: TRM

Compare to: TDM, TPM

DESCRIPTION: The 'T' Mold is a general purpose trim that works well where dissimilar materials meet. It is also a practical replacement for the #1680 Soffit Molding when the soffit has already been framed and the 1680's top flange is not accessible for attaching. The 'T' Mold can be modified to any length from 3/4" to 6".

MATERIAL: Aluminum Alloy 6063 T5 **THICKNESS:** Nominal .050 **ASTM:** B 221

LENGTH: Standard: 10 ft.

FINISH: Standard - Clear Anodized (Architectural 200R1 med. Etch AAM32C10A21)

Also available:

- Alodine® or Chem-Film a.k.a. 'chemical conversion'
- Custom anodized finishes
- Kynar® fluoro-polymer extrusion coating

OPTIONS: **Venting** - All channel screeds from 1/2" width to 4" are available with venting

Radius - Channel screeds can be curved to meet your job specifications
