

## #2 DRIP

---

PRODUCT ID: X#2

**DESCRIPTION:** The #2 Drip Edge is designed to provide a clean, straight transition between soffit and fascia with an exposed 3/4" surface. The 1/4" x 1/4" angle at the bottom of the trim helps to deflect water from migrating along the soffit.

**MATERIAL /**

**THICKNESS:** 26 GA Galvanized Steel, .040" Aluminum – Clear Anodized and Mill Finish, 26 GA 304 Stainless Steel #4 finish, and 16 oz. Copper

**ASTM:** A653, LFQ, C1063, B209, B69

**LENGTH:** Standard: 10 ft.

**STANDARD SIZE:** 7/8" ground with 1-3/4" Nail Flange. Custom sizes are also available.

**BRAND X METALS, INC.**
