

CORNER MOLDING

PRODUCT ID: XCM -75

Compare to: XCM, PXM, XPM

DESCRIPTION: The Brand X Metals 'X' Reveal is designed for use at the corner of two plaster walls. Our 'X' Reveal has a Brand X Metals *Design Advantage* by having a longer nailing flange (1-1/4") vs. the standard 7/8" flange. Typical construction with 5/8" sheathing over exterior framing creates a condition where a 7/8" nail flange is not long enough to ensure good attachment to corner framing.

MATERIAL: Aluminum Alloy 6063 T5 **ASTM:** B 221

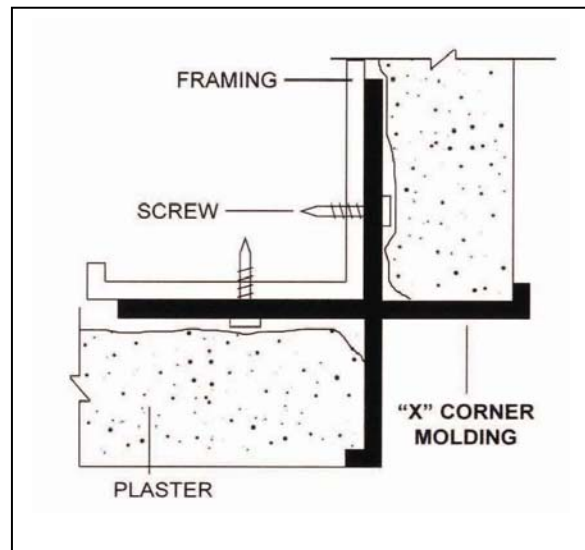

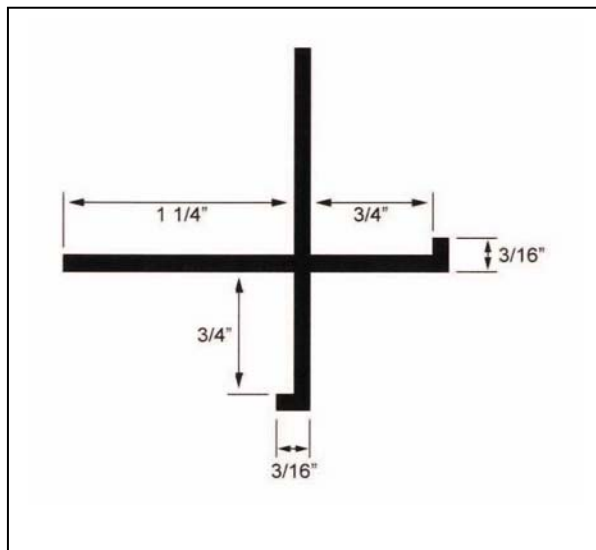

THICKNESS: Nominal .050

LENGTH: Standard: 10 ft.

FINISH: Standard Finish - Clear Anodized (Architectural 200R1 Med. Etch AAM32C10A21)
Also available:

- Alodine® or Chem-Film a.k.a. chemical conversion
- Custom anodized finishes
- Kynar® fluoro-polymer extrusion coating

OPTIONS: **Radius** – XCM Corner Molding can be curved to meet your job specifications
